

HITECH COURIER LLC

STORAGE FEES/DISCLAIMER/IMPORT DUTY/WEIGHT DISCREPANCY

Goods shipped through Hitech Courier LLC in the United States or around the globe must be picked up within 10 working days in Lagos. As soon as packages become readily available for pick-up, we would send text messages and make telephone calls to ultimate consignees in Nigeria and other destinations around the world. Residents and International visitors are hereby advised to provide their telephone numbers and e-mail addresses on the custom's declaration form.

Upon signing below, you hereby authorize Hitech Courier Nigeria Limited to collect storage fee of #1,000 naira per day on each invoice from your ultimate consignee/receiver from the 11th working day, on goods that are not picked up within the 10 working days grace period. Please be advised, that ALL packages are subject to handling charges abroad.

For control purposes, goods for collection in Nigeria are being re-weighed in the presence of the receiver. You are hereby advised, that goods that weigh over 2lbs of what U.S. offices reported to Nigeria will be charged with the difference at the prevailing rate from such office in the U.S. We would not entertain or be held responsible for goods that have been handed over to consignee or their representatives for packages that have actually left our Lagos office. Please advise your representative(s) to inspect and report damaged packages on our Incident Report before acceptance.

At Hitech Courier, we make every effort possible to be your reliable and efficient forwarder and for timely delivery of your goods. However, there are occasions when it may be impossible to make goods available at their final destinations as estimated by Hitech, Foreign Airlines and Ocean liners due to circumstances beyond anyone's control. Examples are, but not limited to: Mother Nature, cancellations, cargo re-booked by the airlines/Ocean liners, for one reason or the other.

When this happens, Hitech Courier USA will not be held responsible or liable for any delay or damages to such goods with expiration dates and broken glass items.

Please be advised, that it may also be necessary to hold customers responsible for import duty on certain goods at the port of destination. We would provide every assistance necessary when situations like this occur.

This letter must accompany all shipping documents. Hitech Courier USA reserves the right not to ship, if a client refuses to sign this authorization/agreement. Please help us to serve you better!
